

Assignment Guide and Rubrics

Instructions:

1. This is an **individual** assignment. This means you cannot submit identical or very similar assignments as compared to any other student.
2. It carries a **weight of 30%** of the entire module of Web Development.
3. At the end of this assignment, you are to submit to Brightspace a zip file containing all the files used i.e. HTML / CSS / JavaScript / images / media etc.
4. There is no fixed theme for the assignment. Only caveat: no offensive themes e.g. sexual, religious bigotry, racism etc.
5. You should treat the website assignment as a portfolio to show off your skills in Web Development to a prospective employer.
6. Your website assignment should include at least the following requirements:
 - At least 3 web pages
 - At least 1 table
 - At least 1 form (with submit button, a response page to show the data entered in the form)
 - Use hyperlinks
 - Use multimedia elements (e.g. pictures, video or audio)
 - Use Cascading Style Sheets to style your website assignment
 - Has a navigation menu to navigate across all pages
7. Plagiarism will NOT be tolerated. The work submitted must be done by yourself. Any student who, after due disciplinary process, is found to have committed an act that contravenes academic integrity in any assessment of a module shall fail the module.
8. Refer to the rubrics in Appendix A below for more details.
9. As part of progress check, you will need to inform your tutor on **Week 7** (during tutorial class), the title, theme as well as the target audience of your website.
10. Deadline for submission of final deliverables in BrightSpace is **31 Jul 2023, Monday, 9am.**

Appendix A: Rubrics

Element	Grade A	Grade B	Grade C	Grade D	Grade F
Usage of HTML and CSS (40m)	Correct and comprehensive set of HTML5 (semantic and structure) tags used for all web content. Able to apply new tags/features researched from internet into web pages independently.	Correct and comprehensive set of HTML5 (semantic and structure) tags used for all web content.
